### EVALUATION OF HAZARDOUS CHEMICALS IN EDIBLE INSECTS AND INSECT-BASED FOOD INTENDED FOR HUMAN CONSUMPTION

Sheila Gunn Reid cites European study showing “yummy” bugs actually carrying pathogens dangerous to humans (not that we want to eat them in first place) 30%!!! I tried to find the abstract but it was hard to find on the site. But here is link to abstract on the chemicals in bugs

### PESTICIDES

<https://ift.onlinelibrary.wiley.com/doi/abs/10.1111/1541-4337.12014>

TOXINS AND STEROIDS Bees and certain kinds of ants carry toxins inside of them in order to ward off predators. Those same toxins can be dangerous if you eat them.

Some kinds of beetles carry a metabolic steroid which can result in growth retardation, infertility, or the masculinization of females if it is consumed too frequently. [14]

### THE POSSIBLE DANGERS OF EATING INSECTS

<https://www.farmersweekly.co.za/opinion/by-invitation/the-possible-dangers-of-eating-insects/>

Contamination of edible bugs can introduce:

#### **Bacteria**

Several bacterial species have been associated with both farm-reared and wild-caught edible insects. These include bacterial species from the genera Staphylococcus, Streptococcus, Bacillus, Pseudomonas, Micrococcus, Lactobacillus, Erwinia, Clostridium and Acinetobacter, as well as members of the family Enterobacteriaceae.

#### **Viruses**

So far, the risks associated with contracting foodborne viruses, such as hepatitis A and E and norovirus, through the consumption of edible insects, are low, but care must be taken not to introduce the viruses in insect-production units through substrates. Insects can potentially serve as replicative vectors for viruses that infect vertebrates.

Additional studies are needed to investigate the possible occurrence and transmission of arthropod-borne arboviruses, which can cause a number of human diseases such as West Nile virus and haemorrhagic fever, through edible insects.

### AFN DEBATES A CONTINUED SUSPENSION OF NATIONAL CHIEF

[https://www.westernstandard.news/news/afn-debates-a-continued-suspension-of-national-chief/article\\_7f29786a-fc75-11ec-927e-8f36ea65cef1.html](https://www.westernstandard.news/news/afn-debates-a-continued-suspension-of-national-chief/article_7f29786a-fc75-11ec-927e-8f36ea65cef1.html) The Assembly of First Nations is facing controversy as it hosts its [43rd Annual General Assembly](#) in Vancouver starting Tuesday as the AFN's executive committee wants chiefs to ratify and extend the suspension of its national chief. On June 16, National Chief RoseAnne Archibald said in a statement she'd been persecuted for investigating AFN corruption. The next day, the AFN's executive committee suspended her with pay, pending an investigation into four complaints lodged against her by her staff. The AFN also said making public allegations breached the AFN's code of conduct and its whistleblower policy. In a [June 17 statement](#), Archibald said AFN staff had made "fictitious attacks" against her in what she called "a seemingly staged coup" [after](#) refusing to sign off on staff payouts worth more than \$1 million. She said she was locked out of her email and found out about her suspension through the media.

### DUTCH FISHERMEN JOIN FARMERS IN ANTI WEF CLIMATE FIGHT

<https://thecountersignal.com/dutch-fishermen-block-ports-across-netherlands/> Dutch fishermen block ports Last month, the EMK (the Dutch fishermen's union) announced their intention to join the farmers in protest, saying the government's nitrogen policy will prevent ships from fishing off the coast of Holland. Videos have now emerged showing several fishing boats collectively attempting to [block ports](#) at IJmuiden, Harlingen, while the port of Lauwerszoog was blocked last night along with other exits. All-in-all, the Dutch uprising has led to an utter standstill in the Netherlands. Roads have shut down, government buildings have been covered in manure, [food distribution centres](#) and borders have been blockaded, and now even ports are closing. How long the government can hold out before they reverse course is unclear.

### JIHAD WATCH?

**This is interesting:** <https://www.jihadwatch.org/why-jihad-watch>

Before it’s too late for Western Europe and the United States, which gave birth to the traditions of freedom and equality of rights for all that shine today as lights in the entire world, this must be stopped. Therefore Jihad Watch seeks to bring public attention to:

- The plight of the dhimmis, an immense but almost completely ignored ongoing scandal that continues in Muslim countries today;
- The plight of women under Sharia provisions, similar to conditions imposed on dhimmis, in the denial of equal rights and dignity;
- Slavery in Islamic lands, which continues today, justified by Sharia-’s dhimmi codes;
- The integral role of jihad and dhimmitude ideology in global terrorism today;
- The license that academic and journalistic whitewashes of dhimmitude gives to radical jihadist enemies of human rights for all.

## A COLLECTION OF POLITICAL PARTY EMAILS FROM THIS WEEK:

---

### Interesting email from Maverick Party:

If you support the Maverick Ideal of Western Autonomy then I urge you to buy a UCP membership and vote for a new leader who thinks as we do. We can only achieve this ideal if enough western premiers also rise to the challenge. Leadership races and candidate nominations are the best place to start winning people to our side. Attached is a link where you can download a Membership form which you can fill it out and send it back to us for processing simply by taking a picture. We are trying to track how effective we can be as a community in the process.

Alternatively, you can go to UCP page directly if that is more comfortable.

(<https://www.unitedconservative.ca/take-action/membership/>) Please mail us back with your membership number if you go this route.

Only when we work together can we make a difference.

Your Servant and Leader of the Maverick Party - Colin Krieger

### Email Conservative Party of Canada:

Statement by Ian Brodie, Chair, Leadership Election Organizing Committee

"In recent weeks, our Party became aware of serious allegations of wrongdoing by the Patrick Brown campaign that appear to violate the financial provisions of the Canada Elections Act. Following our Rules and Procedures for the 2022 Leadership, the Chief Returning Officer notified the Patrick Brown campaign of the allegations and asked for a written response. He also withheld the interim membership list from the Patrick Brown campaign.

"The information provided to date by the Patrick Brown campaign did not satisfy concerns about their compliance with our Rules and Procedures and/or the Canada Elections Act. The Chief Returning Officer has therefore recommended to LEOC that LEOC disqualify Patrick Brown and earlier tonight LEOC agreed to do so. The Party will be sharing the information it has gathered with Elections Canada, who is responsible for ensuring compliance with, and enforcement of, the Canada Elections Act.

"Throughout the investigation into these allegations, the Chief Returning Officer and I have done our best to be fair to the Patrick Brown leadership campaign and provide them with the time they need to substantively refute these allegations. We regret having to take these steps but we have an obligation to ensure that both our Party's Rules and federal law are respected by all candidates and campaign teams. None of these problems has any impact on the integrity of the vote itself.

"While we felt it important to provide a transparent response to Party members about this matter, because this issue is now subject to further investigation, we will not be speaking further on the subject."

### Email from Free Alberta Strategy:

*Important Announcement - Umar Sheikh is the man!*

We are pleased to announce we've retained lawyer [Umar Sheikh](#), as we move into a season seeking justice for the aviation sector. It's time.

Unions and employers have been complicit in the most widespread violation of God-given freedoms in our modern history. This must never happen again.

We intend to assist as many of our aviation professionals as possible, by no means limited to the unvaccinated, unpaid, or terminated. The scope of what lies ahead will require tenacity, patience, hard work and financial commitment from every member seeking representation. Further details and timelines will be forthcoming in the days ahead.

Most importantly: Happy Canada Day CA to you all! There is angst watching an authoritarian government try to pull us down, but be confident in this; one man or woman can make a difference. We put out a [video](#) along exactly these lines yesterday and encourage you all to seize the day, finding **actions** that make a difference.

Hi Shawna, Further, to our conversation the other day about the **Blacklock's Reporter** story I forwarded, I've just seen this come through from Terry Glavin. He's a bit off my beaten track politically as a 'source'--more lefty than

I can usually stomach these days, and I don't like his invented term of 'truckists' for the Freedom Convoy protesters, suspecting 'fascists' may be somewhere at the roots of that--BUT I think he's got a pretty good take on the **Red Ensign story**, and looks to have hit it hard and fast, as it was only Thursday morning that it showed up in BR. I'm subscribed to his Substack at the moment primarily because of the writing he's been doing in the past month about last year's coverage of the residential schools issue; pointing out how much of what the mainstream media alleged about all of it, and basically everything that led to the flags at half mast for 6 months, turned out to be total BS, at odds with what several of the First Nations themselves had to say about it.
